

FOR IMMEDIATE RELEASE

VJ Electronix Expands Demonstration Capability in Europe

September 2015 — VJ Electronix, Inc., the leader in rework technologies and global provider of advanced X-ray inspection systems, has expanded and enhanced its demonstration center in Budapest. Co-located with VJE Distributor, Euro Process Solutions, the new center is equipped with the latest in rework and X-ray systems.

Located in the heart of Budapest, the VJ Electronix demo center includes an expanded range of products, including the innovative XQuik with AccuCount and the flexible Vertex II X-ray inspection system. Rework capabilities include the industry-leading Summit II and the unparalleled entry-level 400 Series.

“We are excited to be better able to showcase our newest technology and develop new applications in the new demonstration laboratory,” explains Director of Global Sales, Ron Lindell. “The knowledge and skill of the European team is among the best in the industry.”

With factory trained technical support, the center is prepared to address sales and support inquiries from across Europe. The increased range of products will allow local development of new applications and training on the use of the latest software and tools.
