

FOR IMMEDIATE RELEASE

VJE to Showcase Summit 1800 and Vertex X-ray at Nepcon West China

May 2012 — VJ Electronix, Inc., the leader in rework technologies and global provider of advanced X-ray inspection systems, will display a fully configured Summit 1800 Rework Platform in Booth #A05 at the upcoming Nepcon West China conference, scheduled to take place June 19-21, 2012 at the New International Convention & Exposition Center in Chengdu, Sichuanin.

The **Summit 1800** Performance Rework Platform incorporates all of the innovative features that have been developed since the invention of high-level, semi-automatic surface mount and microelectronics rework technology.

Extensive field experience and user feedback have resulted in the development of rework systems that exceed current and future industry requirements. Advanced rework software with intuitive 1-2-3 Go! operator interface and Auto Profile maximizes ease of use and throughput, while maintaining the inherent capability to rework today's most complex area-array components.

Also on display, the **Vertex Series A V130** X-ray system is production ready, offering superior uptime and unmatched value. Additionally, the system features a 130kv X-ray tube and total magnification of 1950X.

The Vertex is equipped with innovative Nexus 300 Inspection Software and analysis tools, providing manual operation or fully automated inspection routines. Nexus 300 image processing offers: advanced defect enhancement, pseudo color, edge detection, BGA area, circularity, voiding, large area analysis, void ratio and feature masking. For product traceability in a production environment, a bar code reader is available.

For more information, meet company representatives in Booth #3051 at the show or visit www.vjelectronix.com.

###

About VJ Electronix

VJ Electronix, Inc. manufactures production ready, automated Rework and X-ray inspection systems with many advanced capabilities. The company frequently provides custom solutions tailored to satisfy specific application requirements. VJ Electronix is a worldwide leader in X-ray Inspection and Rework equipment.
