## **VJ Technologies & ISNT Bangalore Chapter Present: Advanced Non-Destructive Technology Symposium**

VJ Technologies is pleased to host the first Advanced Non-Destructive Technology Symposium in cooperation with the Bangalore chapter of the Indian Society for Non-Destructive Testing. The symposium will be held at the Sterling Mac Hotel in Bengaluru, India on Wednesday, February 25<sup>th</sup>, 2015.

Topics key to the Aerospace industry will be addressed, such as, emerging process techniques, standards and compliance, as well as information relevant to all NDT attendees, including latest advances in Non-Destructive Testing technology affecting manufacturing, quality and competitiveness in the market place.

Vijay Alreja, founder and president of VJ Technologies, will open the symposium at 10:00 am.

Key speakers at the symposium include:

Dr. Diran Apelian: Emerging Trends in Metals Processing

Mr. Kirk Thams: Standards and Compliance in Aerospace

Mr. Jay Wood: Technology Advancement and Aerospace Digital Imaging Compliance Requirements
